

DEMOCRATIC TICKET.

ELECTION AUGUST 1886.

FOR COUNTY JUDGE,
W. P. WINFREE.

FOR COUNTY ATTORNEY,
JNO. W. PAYNE.

FOR CIRCUIT COURT CLERK,
CYRUS M. DAY.

FOR COUNTY CLERK,
AQUILLA B. LONG.

FOR COUNTY ASSESSOR,
A. M. COOPER.

FOR COUNTY SHERIFF,
J. F. DIXON.

FOR COUNTY SHERIFF,
A. V. TOWNES.

FOR COUNTY JAILER,
GEO. W. LONG.

FOR SCHOOL SUPERINTENDENT,
G. A. CHAMPLIN.

FOR COUNTY CORONER,
DR. DARWIN BELL.

Sam Jones closed his five weeks' engagement in Chicago last Sunday.

The U. S. Senate has passed a bill appropriating \$500,000 to erect a monument to Abraham Lincoln, at Washington.

Wm. Rahm, Jr., Democrat, and John H. Dammeth, Republican, are the opposing candidates for Mayor of Evansville, Ind.

The Legislature has been in session for nearly a hundred days and less than a dozen bills of general interest have been passed.

The Sheriff has made their April remittances to the Treasury and there is no telling now when the Legislature will adjourn.

The total number of strikers was 52,000, of which number 19,000 resumed work last week, reducing the total striking to 33,000.

A child has just been born in New York without any brains. Let it be brought to Kentucky and made a member of the Legislature.

Robert C. Walker, editor of the Crittenden Press, has been appointed postmaster at Marion, and has entered upon the discharge of his duties.

The Planters Hotel, of St. Louis, was partially destroyed by fire Friday morning. Four servant girls were burned to death. The pecuniary loss is covered by insurance.

It is announced from Washington that Secretary of the Treasury Manning will tender his resignation within the next 30 days, as his present prostrated condition is the result of over-work.

Grand Master Powderly, of the Knights of Labor organization, is lying seriously ill at his home at Scranton, Pa., and the direction of the strike is in the hands of Martin Irons, of St. Louis.

J. Cabell Breckenridge, of Louisville, a son of John C. Breckenridge, has been nominated by the President for Surveyor General of Washington Territory. The place pays a yearly salary of \$2,500.

That is indeed an unfortunate county in Kentucky that cannot boast the possession of a County Court of Claims with more brains and more capacity for transacting business than the State Legislature.

The President has upon the recommendation of Congressman Stone, of the First Kentucky District, pardoned Sam'l R. Taylor, of Ballard county, Ky., confined in the Missouri penitentiary. He is dying of consumption.

The Farmers Home Journal gives some good advice to the farmers on the subject of "sowing oats." No instructions are necessary in regard to the wild variety. The young men of the day soon learn how to sow their wild oats without reading agricultural papers.

U. S. Senator Delph is an advocate of woman suffrage and made a stump speech in favor of it while advocating the admission of Washington Territory as a State last week. In that Territory women are permitted to vote and men run for office on a platform of personal pulchritude when they want the suffrage of the fair sex.

Our good friend and brother editor, Capt. C. T. Allen, of the Princeton Banner, has been nominated by the Democrats of Caldwell for county judge. He received 800 votes out of a total of 912, making his majority over his opponent 68. This is certainly a flattering endorsement to receive from the people of his adopted county.

If there is any weight to be attached to sworn statements gross frauds were perpetrated in the late primary election in Daviess county and hundreds of illegal votes were cast. After the old fashioned Democratic holding conventions is about over and fairest that can be in nominating candidates, seldom heard of a primary which illegal votes were

FOREIGN NEWS.

The Greeks Ready for War.

THE POWERS PROTEST AGAINST A NEW OUTBREAK OF HOSTILITIES IN THE EAST.
LONDON, April 3.—Sir Hercules Rumbold, British Minister to Greece, has been instructed by Earl Rosebery, Minister of Foreign Affairs, to join the other diplomats at Athens in a final strong remonstrance against the warlike attitude of Greece. This combined remonstrance is tantamount to an ultimatum, and if it is ignored by Greece, the fleets of the various governments concerned, which are now in Greek waters, will act forthwith. All of the foreign Mediterranean squadrons are being reinforced with great haste.

THIRTY-SIX KILLED.

BRUSSELS, April 3.—The total number of rioters killed during the recent rioting in Belgium has been ascertained to be twenty-six. It is probable that the persons arrested for inciting the strikers to violence cannot be punished, as it is doubtful whether the mere act of inciting to riot is punishable under the provisions of the penal code.

BRUSSELS, April 3.—About 15,000 strikers refuse to work in the Charleroi district. The men are no longer riotous, however. There is more or less agitation among the strikers at Marchiennes, Flurios and Chateaufort, and at these points troops are still needed to preserve order.

The miners at Concreilles and Dunery went out on a strike to-day. They are disorderly and many of them have been arrested.

PASTEUR AND PATIENTS IN BAD LUCK.
PARIS, April 3.—Another of the well-known milkmen, who have been under treatment by M. Pasteur for protection against hydrophobia, has died from the malady.

SOUTH AMERICAN PLEASANTRIES.
MONTVIDEO, April 3.—A strong government force under Generals Tajes and Arribas has been attacked near the river Dalman, by the revolutionists, Arredondo and Castro. The government troops were defeated with a loss of 400 men.

Three counties voted in the Judicial district composed of Daviess, Hancock, McLean, and Ohio, some time ago, and in the contest for Judge Owen received about 492 votes more than Little. Ohio county will not vote until May 1. The contest is one of much bitterness and Judge Little has published a list of 300 fraudulent votes cast for Owen in Daviess county and is demanding that they be thrown out. The Owensboro papers have "looked horns" on the proposition, the Messenger being for Little and the Inquirer for Owen. The women and small children have been removed to places of safety and the fight is on and the people of Owensboro are witnessing a most relentless and uncompromising newspaper warfare that bids fair to surpass the recent match between the prize-fighters Barnes and Warren, near Louisville, in which 45 rounds were fought. There have already been a number of exciting rounds, but both champions are game and there are no signs of weakening yet on either side. We are not informed as to how the final knock-out comes the backers of one side or the other will doubtless be Owen not a Little.

The Democratic vote at the November election, 1884, and the delegate vote for future representation in Congressional conventions in the Sixth district is given below:

Candidate	Pop.	Vote.	Del. Vote.
Christian	200	10	10
Deviess	8,100	10	10
Hancock	650	10	10
Henderson	2,570	10	10
Hopkins	16,200	10	10
McLean	3,100	10	10
Union	10,400	10	10
Waller	1,100	10	10
Total	33,000	10	10
Necessary to a choice	200	10	10

It will be observed that the four counties that voted for Clay in 1884—Henderson, Daviess, Hancock and McLean—increased their votes from 26 to 35, while the four that Lafoon carried increased from 26 to 33. The dead lock at Sebe, which necessitated the calling of a primary election, may, however, be repeated in the next contest. There are several combinations that might result in a tie. For instance Christian, Hopkins and Webster, or Henderson, Ulen, Webster and Hopkins would taken together make 34 votes, or just half of the vote of the district. The indications now are that there will be candidates from a majority of the counties and things are liable to get very much mixed before the race is settled.

President Cleveland has nominated Rev. Allen A. Allenworth, a colored man of this state, to be Chaplain of the Twenty-fourth Infantry, which is one of the four colored regiments. This is the second colored man nominated to a chaplaincy in the army. Plummer, of Maryland, having been nominated by President Arthur in 1884 to be Chaplain of the Fourth Cavalry. The colored man just nominated by President Cleveland is not a Democrat but has been the most active colored Republican politician in the state, having been a delegate to the convention that nominated Blaine. The place is not a political one, as Allenworth has got from a Democratic Administration what he failed to secure from his own party—a lucrative office—he should at least refrain from teaching his race that Democrats are their enemies.

Judge Joe McCarroll, of Hopkinsville, has withdrawn from the race for Circuit Judge in this Judicial district. He is a gentleman in every respect, and if he had continued his candidacy to would have been warmly supported by many people in this part is the district.—Madisonville Times.

BLOODSHED BEGINS.

The Strikers Become Criminals.

Fr. Worth, April 3.—What had been predicted has come to pass. The striking Knights of Labor and the officers of the law have met in deadly conflict. Two officers fatally wounded and a third shot through both hips are the casualties on the side of law. Of the strikers, so far as can be ascertained, only one has been wounded.

Richard Townsend, a special deputy sheriff, was shot in the back as he stood on the engine, the ball passing through his left lung and coming out on his left side.

Police Officer Fulford was shot through both thighs. Special Officer Dick Townsend was shot twice through the left breast near the nipple. He died at 5:30 this afternoon.

Special Officer Charles Sneed was shot through the throat and jaw. His wounds are fatal. Drs. Volker and Farron, of the Missouri Pacific hospital, say that Sneed and Fulford cannot possibly survive. Only one of the strikers, Tom Nance, a switchman, was wounded. He is said to be shot through the groin.

About fifty shots were fired in all, wren the posse seeing it was useless to fight Winchester with revolvers, placed the wounded officers aboard the train and returned to the main depot. The strikers remained at the scene of the conflict for some time after the train returned to the city, when they secured the Winchester of their wounded companion and started for Sycamore bottom. Nance was left on the prairie.

As soon as the train reached the city the posse was re-formed and armed with Winchester and started in pursuit of the murderers. It is estimated that there were twenty men among the strikers, but of these only five or six carried Winchester.

Tom Nance, the wounded striker, was brought to this city in a wagon this afternoon and as soon as the officers learned of his whereabouts he was carried to jail, where he will be strongly guarded. No other arrests have as yet been made.

The Knights of Labor claim that the first shot was fired by the officers, but the weight of the testimony is against the proposition. Tim Wilson, who was on the engine and with three feet of Dick Townsend, who was shot in the back, states positively that the first fire came from the strikers. D. L. Stewart, who was an eye witness to the shooting, gives it as his opinion that the strikers fired first.

Sheriff Maddox this afternoon organized two companies of citizens, who were armed with Winchester carbines, and marched to the depot, the avowed determination being to suppress all opposition to law.

No further attempt will probably be made to move trains before Monday. The posse will probably be kept under arms night and day.

The people are in a terrible state of excitement, and appear completely dumb founded.

The breach between the law and the strikers has been widened and the bitterest expressions can be heard on every side. There are hundreds of Knights of Labor in the city who do not appear to regret the occurrence of today.

It has been learned that the strikers purchased ten Winchester rifles in this city. The names of two of the men who carried rifles have been learned.

The mayor has issued a proclamation appointing seventy-five deputy policemen and ordering all saloons to remain closed until Wednesday. A petition has been sent Gov. Ireland for state rangers and military transportation for troops has been applied for from Receiver Sheldon.

A high wind is blowing to-night, and if a riot occurs the whole town will be an easy prey to the flames. The streets are filled with armed men. Every precaution is being taken to prevent trouble.

It is thought if to-night isided over there will be no further danger of mob violence, as the troops will be here by to-morrow night.

TRAINS MUST MOVE.

Fort Worth, Tex., April 4.—Six companies of the Fourth Regiment have arrived here and two companies of the First are also here. Brig. Gen. Roberts is in command. The dead body of Frank Pierce, a striker, was found, and has just been brought into town. The two others who were wounded have been located. Trouble is looked for in the morning. The strikers are coming in from all directions.

The train sent south reached Atvards, thirty miles distant, in safety. Attorney General Tammilton, who is here with Adjutant General King, says: "Since the authority of the State has been invoked, it shall be welded, and trains must move if it takes the whole military force of the State to do it."

Quite a number of Republican Senators have in caucus refused to be bound by the resolutions recently passed refusing to confirm nominations where the President declines to furnish papers bearing upon removals to make vacancies. Edmunds is very much annoyed at the position this leaves him in. Among the Senators who declared that they would vote for every nomination on its merits were Merrill, Platt, Plumb, Van Wyck, Hale, Dolph, Mitchell, of Oregon, and Dan Cameron.

People are beginning to ask the question, "What has Gen. Simen Boliver Buckner over done to entitle him to a walk-over for Governor?" This sort of talk will be sure to cause other candidates to enter the contest, and the General might as well set himself to the task of finding a satisfactory answer to this rather pertinent question.

FLOODS IN THE SOUTH.

The Ohio Above the Danger Line.

LOS OF LIFE AT CHATTANOOGA.
NASHVILLE, Tenn., April 3.—Specialists to the Union indicate the most terrible distress and loss of life in Southern Alabama. Railroad traffic is completely blocked and no trains are running on the Louisville and Nashville road south of Birmingham. The Queen & Crescent road is washed out so as to step travel between Meridian, Miss., and Chattanooga, Tenn. The Georgian Pacific road is also badly washed. It will probably be ten days before trains are running.

The Alabama river has overflowed its banks and covers the country with a wild waste of waters. Numbers of people have been rescued from the tree tops, where they climbed to save their lives, and many more from rafts which are floating down the numerous streams. Thousands of carcasses of cattle are seen.

The Tennessee river has overflowed and the bottoms are covered with water. The destruction of the wheat crop in the Cumberland lowlands will possibly amount to half a million dollars, necessitating a second plowing of the ground and the planting of corn and some other product. The flood is the greatest for years and if the rains continue the loss of property will be terrible.

CINCINNATI, April 3.—The river at 9 o'clock to-night was 53 feet 1 inch and rising slowly. It has been steaming all evening. Unless heavy rains fall above here the rise will not advance much farther.

LOUISVILLE, April 3.—The river here was 25 feet at noon, a foot over the danger line, and is rising two inches an hour. This is the highest point ever reached at this time of the year since 1860. Four more feet are expected. No damage is reported as yet.

NASHVILLE, TENN., April 3.—The Cumberland river is 43.5 feet at this point and rising an inch an hour. It is also rising rapidly at the head, a heavy rain having fallen last night. The mill men and lumber men are alarmed that all their rafts will be swept away and their shops injured. Over 200 families have been forced to abandon their homes.

CHATTANOOGA, TENN., April 3.—The river at 11 o'clock a. m., registered 52 feet and was stationary. The river will begin falling by 6 o'clock p. m. Some 5,000 persons who are homeless are well taken care of by the citizens' relief committee. A third person was drowned late to-night. The damage to property cannot now be estimated.

LOUISVILLE, April 4.—The river continues to rise two inches an hour, and has reached the houses at the foot of Sixth street, running the inhabitants out. No damage is reported yet. The Kentucky and Big Sand rivers are still rising from headwaters, and much less of lumber reported. At midnight the river here will reach 27 feet, and much uneasiness is felt.

CHATTANOOGA, TENN., April 4.—[Special.]—The waters are subsiding more rapidly to-night and a total fall of three feet marked on the gauge. It is thought the fall will be 8 feet by to-morrow.

For Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Asthma, Whooping Cough, Croup, and all diseases of the Lungs and Bronchial tubes or air passages, use Dr. Jackson's Lungwort and Wild Cherry, it is an unfailing remedy and very pleasant to take, can be purchased at J. R. Armstrong's Drug Store, Hopkinsville, Ky. Price 25 cents 50 cents and \$1.00 per bottle.

The Democrats of Hopkinsville county, after wandering in the wilderness of defeat for two or three years, seem to be in a fair way to adjust their differences and present once more a bold and united front to the enemy. All parts and factions of the disrupted Democracy have agreed to let a primary election settle the county ticket, all hands pledging themselves to stand by the nominees. To this end a primary has been called for Saturday, May 1, the same day that the district election will be held.

Judge John Baxter, of Knoxville, Tenn., Judge of the U. S. Circuit Court for the Sixth District, died suddenly at Hot Springs, Ark., Friday. His death was caused by apoplexy. He was 67 years old and was appointed Judge in 1877. His District embraces the States of Tennessee, Kentucky, Ohio and Michigan. In this State court sessions are held at Louisville, Covington, Paducah and Frankfort. The salary of the Judge is \$6,000 and the office is of life tenure. Look out for a scramble for the place.

When at Fort Worth, Tex., yesterday the first deputy sheriff dropped with a bullet from a Winchester rifle through him, the strikers on the Gould Southwestern system disappeared and all the questions it involved sunk out of sight in presence of the overshadowing question of the upholding law and punishing crime.—St. Louis Republican.

During the first quarter of 1886 there were 3,203 business failures in the United States, with liabilities exceeding \$29,000,000 somewhat. Last year, in the same period, there were 3,553 failures, with liabilities of \$46,000,000. The total failures this year involved less money than at any time since 1873.

The Democratic primary in Caldwell resulted in the nomination of the following county ticket: C. T. Allen, Judge; Wm. Marble, Attorney; F. A. Pastour, Clerk; J. M. Pool, Jailer; L. S. Lottwell, Surveyor; J. W. McChesney, Coroner; S. B. Jott, School Supt.; J. B. Wadlington, Sheriff; J. H. Stevens, Assessor.
